CARRER OBJECTIVE

Passionate AI enthusiast with hands-on experience in machine learning and deep learning, aiming to contribute to impactful AI solutions at Detect Technologies through innovative and data-driven approaches.

PROJECTS

Autism Spectrum Disorder Prediction - Web App

A Flask-based web app using machine learning models to predict Autism Spectrum Disorder(ASD), providing early diagnosis through a user-friendly platform.

MERN Stack Hospital Management System

A full-stack application built with React, MongoDB, Node.js, and Express, featuring patient management and appointment scheduling, with integrated ASD prediction functionality.

Deep Learning Approach for Seizure Detection

Utilizes deep learning to detect epileptic seizures by analyzing EEG signals converted into spectrograms, improving the accuracy of epilepsy diagnosis and monitoring.

INTERSHIPS

Web Epic Technologies (Jan 2025 – Apr 2025)

Web Developer Intern

Assisting the Full Stack Development team in web application development, testing, and maintenance, gaining industry experience and enhancing technical skills.

PUBLICATIONS

Enhanced Early Identification of Autism Spectrum Disorder using Deep Learning and Advanced Machine Learning, at ICECA IEEE, Scopus indexed.

CERTIFICATIONS

- Microsoft Certified Azure AI Engineer Associate
- MongoDB Associate Developer - MongoDB

EDUCATION

Kongu Engineering College

Bachelor of Technology in Artificial Intelligence and Machine Learning with CGPA: 8.30*

Sri Vijay Vidyalaya Matriculation Higher Secondary School

Higher Secondary Certificate (HSC) with Percentage: 89.5%

Sri Vijay Vidyalaya Matriculation Higher Secondary School

Secondary School Leaving Certificate (SSLC) with Percentage: 95%

SKILLS

- Programming Languages: Java, Python, SQL
- Web Technologies: HTML, CSS
- Tools & Platforms: Git, GitHub, Power BI, Tableau

SOFT SKILLS

- Communication
- Adaptability
- Problem-Solving

AREAS OF INTEREST

- Machine Learning
- Data Analysis
