LeetCode: thani_2004

CAREER OBJECTIVE

Aspiring Machine Learning and Deep Learning Engineer, skilled in Python, TensorFlow, and OpenCV. Interested in building intelligent, data-driven systems for impactful real-world applications.

EXPERIENCE

WEB EPIC TECHNOLOGIES PRIVATE LIMITED | FRONT END DEVELOPER INTERN

Jan 2025 – April 2025 | Remote

- Designed and developed e-commerce platforms for seamless user experiences.
- Worked on front-end technologies, ensuring robust and scalable solutions.
- Conducted code reviews and debugging to maintain high code quality.

PROJECTS

LUNG CANCER PREDICTION SYSTEM 🔄

- Developed a machine learning model to predict lung cancer based on patient health data.
- Processed and visualized medical features to identify key risk indicators.
- Evaluated multiple classification algorithms.
- Technologies Used:** Python, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn.

EMOTION RECOGNITION USING CNN 🔄

- Developed a CNN-based deep learning model to classify facial expressions into multiple emotion categories.
- Applied image preprocessing, augmentation, and early stopping to enhance model generalization.
- Technologies Used:** Python, TensorFlow, NumPy, Matplotlib.

CHEAPMART 🔄

- Built a web application to aggregate product data from leading e-commerce platforms like Instamart, Zepto, and BigBasket.
- Designed a user-friendly interface to display real-time pricing and availability of products across multiple platforms.
- Technologies Used:** Selenium, Flask, Python, JavaScript.

PET ADOPTION WEBSITE 🔄

- Developed a platform to streamline pet adoption and donations, promoting animal welfare.
- Integrated a dynamic admin panel to manage user data, adoption requests, and pet listings.
- Technologies Used:** React.js, Node.js, MongoDB.

E-COMMERCE SITE FOR DRESSES 🔄

- Developed a full-stack e-commerce platform for men, women, and kids to browse and purchase clothing items.
- Enabled features like product browsing, order placement, order tracking.
- Technologies Used:** React.js, JavaScript.

EDUCATION

KONGU ENGINEERING COLLEGE

B.TECH IN ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING

Nov 2022 – Present | Tamil Nadu

CGPA: 8.18

SRI VINAYAGA MATRIC HR. SEC. SCHOOL

HSC

2022 | Tamil Nadu

Percentage: 91.83

SRI VINAYAGA MATRIC HR. SEC. SCHOOL

SSLC

2020 | Tamil Nadu

Percentage: 95.4

TECHNICAL SKILLS

PROGRAMMING LANGUAGES

C, Java

LIBRARIES & FRAMEWORKS

React.js

ML & DATA SCIENCE

Pandas, NumPy, Matplotlib, Seaborn, OpenCV

WEB TOOLS

VSCode, Git, GitHub

DATABASES

MongoDB, MySQL

CERTIFICATIONS

- MongoDB Associate Developer

AREAS OF INTEREST

- Machine Learning
- Deep Learning

ACHIEVEMENTS

- 1st Prize - Paper Presentation:**
Awarded 1st prize for presenting innovative research on multiple disease prediction.
- 2nd Prize - Hackathon (Cheap Mart):**
Awarded for building a cost-effective solution in a 24-hour hackathon.

SOFT SKILLS

Problem Solving, Adaptability, Time Management
