CAREER OBJECTIVE

To grow and expand my expertise within an organization that strongly prioritizes creativity, innovation, and progressive solutions while advancing my career.

EDUCATION

Kongu Engineering College, B.Tech in AI & ML, CGPA: 8.18 (Till 6th Sem) 2022 – Present

Veveaham Higher Secondary School, HSC Percentage - 94

Veveaham Higher Secondary School, SSLC Percentage - 91

Area of Interest

- Machine Learning
- DBMS

SKILLS SUMMARY

Languages : Java , C , Python , SQL

Web Development : HTML , CSS , NODEJS

Data Analytics : PowerBI , Matlab , Tableau

Version Control : Git , Github

EXPERIENCE

INTERN, Generative AI Consortium & Systima NX IT Pvt. Ltd. – ML Engineer March 2024 – April 2024

- Developed Python-based Generative AI solutions with LLM models.
- Utilized machine learning algorithms to predict early-stage breast cancer by analyzing patient medical data for timely and accurate detection.

CERTIFICATIONS

- MongoDB Associative Developer – INTERNATIONAL
- NPTEL Certifications [ML for Soil and Crop Management, Social Network Analysis]
- Oracle Certification

PROJECTS

Early Breast Cancer Detection [MACHINE LEARNING]

- Applied machine learning techniques to analyze patient medical data, enabling early-stage breast cancer detection with improved accuracy and timely diagnosis.

LLM Based Multi Search [LLM]

- Developed a llm based multi search engine which searches the given query in Google and DDG and gives the result in JSON format in a folder called search_cached.

Library Management System [FULLSTACK]

- This platform provides a Library Management System with Student and Faculty logins. Students can search, borrow, and return books, while faculty manage books and track inventory.

TamilNadu State Election Analysis Dashboards [POWERBI]

- Data analysis project created with Power BI, it visualizes and analyzes election-related data to provide insights about future elections.

PUBLICATIONS

‘Optimizing Early Breast Cancer Detection Through Machine Learning Techniques,’ ICOFE-2024, K.S.R. College of Engineering Debre Tabor University, Oct 2024.’

ACHIEVEMENTS

- Academic Excellence Award [2023]
