📍 Tirupur, Tamil Nadu

SUMMARY

Software engineering student with strong problem-solving skills and hands-on experience building real projects. Comfortable working across backend development, databases, and modern web technologies. Interested in integrating AI-driven features into real-world applications.

WORK EXPERIENCE

AI Intern

Edunet Foundation 📅 June 2025 – July 2025 📍 Remote

- AI-Driven
- Machine Learning
- Data Preprocessing
- ML Model Building

- **Processed** and cleaned a large, unstructured dataset using Pandas, which enabled a 30% faster feature extraction process for ML models.
- **Developed** a customer churn prediction model using Scikit-learn and logistic regression, achieving an **85% accuracy** on a real-world dataset.

PROJECTS

StarAI-Chatbot 🌐 GitHub

Tech Stack: React.js, Node.js, Express.js, MongoDB, Generative AI API

- Pioneered a generative AI chatbot equipped with personalized response capabilities and multi-turn conversation support
- Developed a full-stack web application utilizing the MERN stack (MongoDB, Express.js, React, Node.js) that serves users and facilitates efficient data management across departments.

Intelligent Face Recognition Platform 🌐 GitHub

Tech Stack: Python, TensorFlow, MTCNN, FaceNet, JavaScript, HTML

- Designed a face recognition system that verifies identities from both individual and group photographs, displaying matches with confidence scores and visual bounding boxes.
- Attained a low False Acceptance Rate (FAR) of less than 1% by using MTCNN for multi-face detection and a pre-trained FaceNet model for robust feature extraction.

Retrieval-Augmented Generation Chatbot 🌐 GitHub

Tech Stack: Python, FAISS, Ollama, MongoDB, Sentence-Transformers

- Built a local-first RAG chatbot using Flask, FAISS, Ollama, and Sentence-Transformer embeddings with hybrid (semantic + keyword) retrieval.
- Implemented multi-model LLM switching and a full-stack pipeline for document ingestion, chat context memory, and MongoDB-based storage.

CERTIFICATIONS

- **MongoDB Associate Developer** – MongoDB University, 2025
- **Oracle APEX Cloud Developer Professional** – Oracle, 2025
- **Getting Started with Deep Learning** – NVIDIA, 2025

EDUCATION

B.Tech in Artificial Intelligence and Machine Learning

Kongu Engineering College

📅 2023 - Present 📍 Perundurai, Erode
CGPA (up to 4th Sem): 8.70

HSC, CBSE

Vidhyasagar International Public School

📅 2022 - 2023 📍 Tirupur
12th Percentage: 92.20%

SSLC, CBSE

Vidhyasagar International Public School

📅 2020 - 2021 📍 Tirupur
10th Percentage: 93.40%

SKILLS

Languages

- Python
- C
- Java

Web Development

- HTML
- CSS
- React.js
- Node.js
- Express.js
- Flask

AI/ML

- Machine Learning
- Deep Learning
- Computer Vision
- RAG

Databases

- MongoDB
- SQL

Tools

- Git
- GitHub
- Power BI
- R Studio

ACHIEVEMENTS

- Academic Excellence Award (2023–2024) for ranking in the **Top 1%** of the AIML department.
- Won **1st Place** at the CSI Project Expo for developing the **Intelligent Face Recognition Platform**.
- Secured **Runner-Up** in the KGISL Coding Contest by performing well under competitive time constraints.

RESPONSIBILITIES

- **Executive Member** – Computer Society of India, KEC
