

OBUPREETHI G

Software Developer | MERN

Salem, Tamil Nadu · +91 63796 77950 · preethiusha007@gmail.com

Portfolio: obuportfolio.onrender.com · GitHub: github.com/Obupreethi · LinkedIn: linkedin.com/in/obupreethi

SUMMARY

Software Developer with strong experience in building scalable MERN stack web applications. Proficient in REST APIs, MongoDB Atlas, authentication systems, real-time features, and cloud deployment using Render. Solid foundation in Data Structures and Algorithms with proven experience delivering academic, social impact, and real-time platforms.

EDUCATION

B.E. Computer Science and Engineering

Kongu Engineering College, Erode | CGPA: 8.38 | 2023-2027

HSC (BIOLOGY-MATHS), 92.8% - 2024

St. Joseph's MHSS, Gurai, Salem

TECHNICAL SKILLS

Languages: C, Java, JavaScript, Python, SQL.

Web Technologies: React.js, Next.js, Node.js, Express.js

Databases: MongoDB, MySQL, Firebase

AI & Tools: AI APIs, LLM integration, OCR (Tesseract), Face Recognition- Base64 (FaceAPI / ML model).

Real-Time: Socket.IO, Webhooks.

Cloud : AWS.

Tools & Platforms: Git, GitHub, Render, Netlify

DevOps Basics: Git, GitHub, Build Automation, CI/CD Basics, Linux Basics

Database Querying: SQL, Joins, Aggregations, Normalization (Fundamentals)

CERTIFICATIONS

- MongoDB Certified Associate Developer (2025)
- JAVA SE17 Developer (2026)

LEADERSHIP & SOCIAL SERVICE

- Student Placement Coordinator, KEC (2025-2027)
- Executive Member, CSE Coding Club (2025-2026)
- Executive Member, Red Ribbon Club (2025-2026)
- Executive Member, Freelancers Club (2026-2027)
- Social Service Directress, Interact Club - School Level

AREA OF INTEREST

- Full Stack Web Development
- AI & ML Integration
- Data Structures & Algorithms
- Data Engineering & Analytics
- Fundamentals of OS & CN

INTERNSHIPS:

Secuvra—Software Developer Intern

Jan 2026– Apr 2026 | Remote

- Developed and maintained POS billing application.
- Worked on feature updates, debugging, and testing.
- Assisted application build and deployment process.
- Managed project files with version control.
- Supported release-ready application delivery.

SOFT SKILLS

- Leadership
- Communication
- Teamwork
- Creativity
- Self-Learning

LANGUAGES KNOWN

- Kannada
- English
- Tamil

ACHIEVEMENTS

Winner Up's :

Overall Winner – BYTS INDIA Hackathon (2025)

Winner – HackBuzz (2025)

Winner – Paper Presentation (Nourish Aid, Minskys 2025)

Winner – Ramanujan History Presentation (Maths Club 2024)

Runner Up's :

Runner– KEC Hackathon (2025)

Runner– Hackons (2025)

Top 10 :

Top 10 – GDG On-Campus Event, GSSSIETW (2026)

PROJECTS

10+ Full Stack Projects (Hosted on Render)

SeniorEase & BloodLink – Social Care Platforms | MERN, Twilio (2025), Razorpay

- Developed secure platforms for elderly support and blood donation management.
- Implemented role-based access, OTP authentication, and secure data handling.
- Built centralized systems to manage service requests and donor-recipient matching.

LinguaLearn, EduConnect & Visual Math – AI-Based Learning Platforms | MERN, LLaMA

- Built AI-powered educational platforms for language learning, academics, and math visualization.
- Developed chatbot-based assistance for student queries and personalized learning support.
- Implemented resume analysis, skill recommendations, and interactive learning modules.
- Improved student engagement through AI-driven content delivery and visual explanations.

IN PROGRESS:

POS GST Billing Application | Electron.js

- Built offline billing desktop software
- Maintained builds and tested releases
- Used structured development workflow and version control

Real-Time Payment Monitor – Fraud Detection System | MERN, LLaMA (2025)

- Engineered an SSE-driven payment event stream incorporating device-signal anomaly detection for real-time fraud monitoring.
- Analyzed streaming transaction data to identify anomalous behavior and potential fraud patterns.
- Integrated LLaMA-based risk scoring to classify suspicious transactions and prioritize alert triage in simulation.
