To,
The principal,
Kongu Engineering College

**Subject**: Proposal for Internship Collaboration – Software Engineer Intern Program (B.E)

Respected Sir/Madam,

Greetings from Tridots Tech Pvt. Ltd.

We are pleased to express our interest in establishing an internship in collaboration with your esteemed institution. Tridots Tech Pvt. Ltd. is delighted to offer a 1 Year internship program for your final year B.E / B.Tech students for the role of Software Engineer Intern, specializing in Frappe / ERPNext development.

## Selection Process

As part of the selection process, our team will conduct a deployment activity to assess, shortlist, and finalize candidates for the internship. This activity may be conducted at the Kongu Engineering College accordingly.

## Internship Training Infrastructure Support

The shortlisted interns are expected to undergo the 1-Year Internship Program at our esteemed office premises.

## Program Overview: Software Engineer Trainee Pathway

| Phase | Duration | Compensation | Role Focus |
|---|---|---|---|
| Phase 1: Internship | 12 Months | Paid Stipend | Frappe/ERPNext TrainingPython,JavaScript, Customization, Testing |
| Phase 2: Employment | Min 2 Years | Salary | Advanced Development, Module Building, Client Implementations |

## The Role of a Software Engineer (ERPNext)

A Software Engineer in ERPNext development is responsible for customizing, developing, and implementing ERP solutions that meet client business requirements. ERPNext is an open-source Enterprise Resource Planning platform built on the Frappe Framework.

### Key Responsibilities during the Program:

- **ERPNext Fundamentals:** Understanding modules like Accounting, Inventory, HR, Manufacturing, CRM, and more
- **Python Development:** Writing server-side scripts, custom doctypes, and backend logic using Python
- **JavaScript & Frontend:** Building custom forms, client-side scripts, and user interface customizations
- **Frappe Framework:** Learning the underlying framework for building web applications and APIs
- **Database Management:** Working with MariaDB/MySQL for data management and reporting
- **Testing & Debugging:** Writing test cases, debugging code, and ensuring quality implementations
- **Deployment & Support:** Assisting in system deployment, configuration, and post-implementation support

This program develops essential technical skills in Python, JavaScript, Web Development, Database Management, and ERP Systems – all highly sought-after skills in the IT industry.

## Internship Stipend Structure for B.E/B.Tech Students

| Internship Period | Monthly Stipend |
|---|---|
| 1st – 3rd Month | **₹8,000** |
| 4th – 6th Month | **₹10,000** |
| 7th – 12th Month | **₹12,000** |

## Employment Package (Post Internship)

Upon successful completion of the 1-year of internship, selected candidates will be converted to full-time employees with the following compensation structure:

| Component | Amount | Duration |
|---|---|---|
| **Annual CTC** | **₹4 to 4.5 LPA** | **Next 1 Year** |

**Note:** Your final salary will be determined by your interview performance, staying within the previously stated range. Deductions – PF & ESI (if applicable). The above Annual CTC includes these statutory deductions.

## Additional Details

- **Internship Location: Tridots Tech Pvt.Ltd , Chennai**
- **Job Location:** Chennai
- **Internship Certification:** Yes

## Benefits for KPR Institute of Engineering and Technology

- **Industry-Ready Skills:** Students gain hands-on experience in ERPNext, Python, and web development
- **Real Project Exposure:** Interns work on live client implementations and contribute to actual product development
- **Long-Term Pipeline:** Sustained relationship for future placement opportunities in the IT sector

## Conclusion

We would like to recruit top talents from the Kongu Engineering College for the position of Software Engineer. Based on your confirmation, we will announce the dates for campus recruitment. This initiative is designed to establish a sustainable, long-term relationship to shape future technical leaders.

We look forward to your positive response and hope to begin a fruitful association with your esteemed institution.

Warm regards,
**Tridots Tech Pvt. Ltd.**
