We implement marketing strategies to increase your online visibility.

JOB DESCRIPTION

AI & Generative AI Intern

Job Description – AI & Generative AI Intern
Company: Valentius Kryptix
Internship Type: Remote
Job Code: VKJDAI102026
Nature: Unpaid Internship

About the Internship
Build the future — work with LLMs, AI agents, RAG pipelines, and Generative AI tools. As an AI & Generative AI Intern at Valentius Kryptix, you will work on the most exciting frontier in tech. You will build production-ready AI systems used in real applications.

Prerequisites
- Python programming (intermediate level)
- Basic understanding of ML or GenAI concepts
- Curiosity about LLMs and AI tools
- API usage experience is a plus

Skills You Will Learn
- LangChain and LlamaIndex for RAG pipelines
- OpenAI API, Anthropic API, HuggingFace models
- Fine-tuning LLMs on custom datasets
- AI agent design with tool-use (ReAct, AutoGen)
- Prompt engineering and evaluation frameworks
- Vector databases: FAISS, Chroma, Pinecone
- AI-powered content and workflow automation
- MultiAgentic AI Systems, STT, TTS, Computer Vision

JOB DESCRIPTION

What you will be building?

- Build a RAG-based Q&A chatbot over a document set
- Create a prompt engineering research report and publish on VK blog
- Fine-tune a small LLM on custom dataset (HuggingFace)
- Build an AI agent with web search and code execution tools
- Capstone: Production AI SaaS product with live API

Your Presence Boosters

- Showcasing your AI build on Linkedin
- Getting a chance to write a Gen AI tutorial blog on valentiuskryptix.com
- Publish AI project walkthrough on Medium / Dev.to / GFG
- Contribute to AI discussions on Reddit r/LocalLLaMA / r/artificial
- Share AI product video demos

Perks

- Industry-recognized Completion Certificate with QR code verification
- High Performers may get LinkedIn endorsement
- FREE 500 AI Credits of Placement Readiness AI Platform
- Live AI product URLs for your portfolio
- Badges: Research Scholar, Prompt Master, Agent Builder, Top Performer
- Campus Ambassador opportunity

Application Process

- Through College Placement Cell OR interns.valentiuskryptix.com
- A GitHub project, Research Papers, Linkedin Profile, or any project will be preferred.
- Applications reviewed within 48 to 72 hours.
- Auto-scored on GitHub, CGPA, and project portfolio.
- Queries: internship@valentiuskryptix.com | Job Code: VKJDAI102026

CLOSING MESSAGE

THANKS FOR YOUR INTEREST

At Valentius Kryptix, we prioritize your goals and satisfaction, providing tailored, high-quality services that drive growth and exceed expectations in the digital era.
